

FANATEC GT WORLD CHALLENGE POWERED BY AWS

ROUND 4 – CROWDSTRIKE 24 HOURS OF SPA

SPORTING NOTE #4

BRONZE TEST REPLACED BY TEST SESSION

Due to a situation of force majeure, namely the decision to resurface a large part of the Spa-Francorchamps circuit after the official Spa Prologue, it has been decided to replace the planned Bronze Test with a non-mandatory test session open to all cars and drivers.

Specific testing regulations will be issued. The test will follow Article 29.14 in terms of the number of tyres, and the only fuel allowed will be the official fuel in accordance with article 35.1. The test will exceptionally be considered to be part of the meeting.

This will replace any references to the Bronze Test during the CrowdStrike 24 Hours of Spa.
